### 3 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 3.1 New standards, interpretations and amendments adopted by the Group

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended 31 December 2022, except for the adoption of the following new standards, interpretations and amendments effective as of 1 January 2023. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

- IFRS 17 Insurance Contracts
- Definition of Accounting Estimates Amendments to IAS 8
- Disclosure of Accounting Policies Amendments to IAS 1 and IFRS Practice Statement 2
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction Amendments to IAS 12

These amendments had no impact on the interim condensed consolidated financial statements of the Group. The Group intends to use the practical expedients in future periods if they become applicable.

### **UAE Corporate Income Tax Law**

On 9 December 2022, the UAE Ministry of Finance released Federal Decree-Law No. 47 of 2022 on the Taxation of Corporations and Businesses (Corporate Tax Law or the Law) to enact a Federal corporate tax (CT) regime in the UAE. The CT regime is effective from 1 June 2023 and accordingly, it has an income tax related impact on the financial statements for accounting periods beginning on or after 1 June 2023.

Decision No. 116 of 2022 (published in December 2022 and considered to be effective from 16 January 2023) specifies that taxable income not exceeding AED 375,000 would be subject to the 0% UAE CT rate, and taxable income exceeding AED 375,000 would be subject to the 9% UAE CT rate. With the publication of this Decision, the UAE CT Law is considered to be substantively enacted for the purposes of accounting for Income Taxes.

The UAE CT Law shall apply to the Group with effect from 1 January 2024. The MoF continue to issue supplemental Decisions of the Cabinet of Ministers of the UAE (Decisions) to further clarify certain aspects of the UAE CT Law. Such Decisions, and other interpretive guidance of the UAE Federal Tax Authority, are required to fully evaluate the impact of the UAE CT Law on the Group.

Since the provisions of UAE CT law will apply to Tax Periods commencing on or after 1 June 2023, the related current taxes shall be accounted for in the consolidated financial statements for the period beginning 1 January 2024. However, the related deferred tax accounting impact has been considered for the financial period ended 30 June 2023. Following assessment of the potential impact of the UAE CT Law on the balance sheet, we do not consider there to be material temporary differences on which deferred taxes should be accounted.

The Group will continue to monitor the publication of subsequent decisions and related guidance, as well as continuing its more detailed review of its financial matters, to consider any changes to the position at subsequent reporting dates.

### 4 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

The preparation of condensed consolidated interim financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing these interim condensed consolidated financial statements, the significant judgments made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those applied to the consolidated financial statements for the year ended 31 December 2022.

### 21 SEASONALITY OF OPERATIONS

Interim results fluctuate due to the seasonal demands for chilled water, in line with the average temperatures in the region. Tabreed's operations generally produce higher revenues in the summer due to increased customer consumption, while certain expenses such as depreciation, interest and operating expenses remain more evenly distributed throughout the fiscal year. As a result, interim operational profits are not indicative of operational profits on an annual basis.

### 22 FAIR VALUE MEASUREMENT

Some of the Group's financial assets are measured at fair value at the end of the reporting period. The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable and gives information about how the fair value of these financial assets are determined.

- Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.
- Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

### 22 FAIR VALUE MEASUREMENT (continued)

The Group held the following financial instrument measured at fair value:

| Fair value as at   |   |  |                         |  |                                      |  |

The reduction in the fair value of derivatives was mainly due to the settlement of hedge associated with Term Loan 2 (note 13). There were no transfers between each of the levels during the period.

### 23 SUBSEQUENT EVENTS

As of 1 January 2022, the four non-U.S. dollar LIBOR benchmark rates - the British pound (GBP), Japanese Yen (JPY), Swiss Franc (CHF) and Euro (EUR), along with the one-week and two-month USD LIBOR, stopped being published. The end of these rates is part of the final cessation of LIBOR and accordingly, all the remaining USD LIBOR rates have discontinued after 30 June 2023 and has been replaced by Secured Overnight Financing Rate (SOFR).

Tabreed has only one term loan denominated in USD with LIBOR as the benchmark rate. Further, the loan is 100% hedged through a plain vanilla interest rate swap (IRS). The Company has transitioned the loan and the associated hedge from LIBOR to SOFR and based on management's assessment, such transition will not result in an impact on the Group's profit or loss or equity.
